Title: Review

**Review:**

" Dr. Friedman is wonderful, I am so glad I had made that call 2 years ago. Sedation dentistry is the only way to fly as I tell my friends. I have already made suggestions to several of my friends, not sure if they have taken the leap yet. Everyone that I have met in the office so far are great and do not make you feel like a "chicken" for being sedated. "

Title: outstanding and caring

**Review:**

" The doctor made me feel so relaxed and I wanted to tell him that he was the only doctor that took his time and saw the real thing of what was going on. Then he went straight to the point of the matter. That 's what I like about this doctor, he pulls no punches."

" Dr. Kumar was excellent with my 3 and 8 year old. He is very gentle and fun for the kids. He was great at explaining everything to me as well as my children and makes the best balloon swords!"

Title: Dr. Painless

**Review:**

" Clearly many fear going to see the dentist and many jokes exist that relate to this fear. \*\*\*\*\* Father: Don't you feel better now that you've gone to the dentist? \*\*\*\*\* Son: Sure do. He wasn't in. All joking aside it is clearly a perception that Dr. Friedman has worked very hard to amend. Dr. Friedman has demonstrated his ability to develop the supreme dental experience far beyond the practices of mere mainstream dentists. The experience begins with the man...[More](#)"

Title: Crown vs. Implant

**Review:**

" I had been going to the same Dentist for 25 years when I had an accident that fractured one of my front teeth. My dentist at the time took a quick look and suggested that the best course of action was an implant as there was not enough tooth to perform a crown. After consultation with an oral surgeon I came to believe it was best to try and retain the tooth and sought a second opinion on the implant. I wanted to find a dentist with a good reputation and solid background in cosmetic dentistry. I ...[More](#) "

Title: worth the trip

**Review:**

" I currently live in Trenton, NJ, which is not exactly around the corner from Dr. Friedman 's office. However, I am willing to take the trip for the top-notch dental care, ultra-modern office, and great staff. I wouldn 't trust my dental care to any other dental office. For someone who has always hated trips to the dentist, I actually look forward to my visits to Newman Springs Dental Care. I wouldn 't hesitate to recommend this practice! "

Title: sincere gratitude

**Review:**

" I 'm amazed at the quality of care I received during my recent visits to Newman Springs Dental Care. In our fast paced world, it 's definitely unusual to come across professionals that will spend such lengths of time as all of the staff did with me. Everyone was kind and patient with me - which considering I came with high anxiety, was a welcomed reaction! I was shocked to receive a call from Dr. Friedman introducing himself before my first appointment and comforted to receive a fo...[More](#) "

**Review:**

" Julie is the greatest dental hygienist! Absolutely gentle cleanings every time. Dr. Friedman saw me when I was scared and in pain last year. They got me in the same day and got me comfortable. You guys are the greatest. Love that whitening for life program too. I´ll never go anywhere else."

**Title:** caring doctor

**Review:**

" Dr Friedman actually listened to me and understood my concerns. That´s a first in my adult life. Because I was in pain, they changed their schedule to take care of me right away. The Wand is a computer device that they used to get me numb. No dreaded needle like I remember at other dentists. Thank you all. :-)"

**Title:** WOW!

**Review:**

" From the first nervous phone call, you made me feel at ease. It´s hard to admit that I´m a dental "chicken", but my childhood dentist and the military made me that way. Thank you for getting me out of pain so fast and rebuilding my mouth so I can eat without pain and smile for my children."

**Title:** praise

**Review:**

" Both doctors in the office are wonderful. They are very nice, go to lengths to make you comfortable, do excellent work which is often not done in a conventional way but suits my situation, find various ways to save money, and correct whatever wasn´t right. They also look ahead to spot things that will go wrong and stop them from occurring or reduce their negative effect. Their staff has always been wonderful. Their office is well run. "

**Title:** My Visit

**Review:**

" My visit at this office was one of the best experiences I had at a dentist´s office. Everyone was so friendly, caring and gentle. Dr. Friedman was wonderful. I´ve had horrible experiences at the dentist and was so afraid to come to

your office. The day I had my extraction, I felt at ease. Everyone gets nervous, but I was okay once I got there. Thank you and I would highly recommend your office."
